The Department of Speech, Language, and Hearing Sciences

Mission Statement

The mission of the Department is to contribute to the scientific study of human communication and its disorders, to educate students regarding the relevant knowledge and skills necessary for clinical and research endeavors in the field, and to provide service to the university, community, state, and beyond.

Academic Programs

The Department of Speech, Language, and Hearing Sciences offers coursework leading to the Bachelor of Science (BS), Master of Science (MS), Doctor of Audiology (AuD), and Doctor of Philosophy (PhD) degrees.

The Bachelor of Science degree includes coursework to develop understanding of basic principles of biological sciences, physical sciences, mathematics, and the social and behavioral sciences. The SLHS major provides a broad education regarding human communication and communication disorders across the lifespan. This degree is preparatory for clinical degrees in speech-language pathology or audiology, as well as for advanced degrees in speech, language, and hearing sciences or related fields of study. The degree also provides a foundation in writing, effective communication, and critical thinking to position graduates as attractive for many careers.

The Master of Science degree includes the two-year academic and clinical training to prepare students for a career in speech-language pathology. A nonclinical Master of Science degree is also available.

The Doctor of Audiology (AuD) program is a four-year course of study for a professional degree with a clinical emphasis in audiology.

The Doctor of Philosophy (PhD) program prepares students for academic and research careers through coursework and participation in research projects.

Accreditation

The Master of Science (M.S.) residential education program in Speech-Language Pathology and the Doctor of Audiology (Au.D.) residential education program at the University of Arizona are accredited by Council on Academic Accreditation in Audiology and Speech-Language
Pathology of the Association, 2200 Research Boulevard, #310, Rockville, Maryland 20850, 800-498-2071 or 301-296-5700.

Department of Speech, Language, and Hearing Sciences Teaching Mission Statement

The teaching mission of the Department of Speech, Language, and Hearing Sciences at the University of Arizona is to provide excellent foundational and advanced education to students in human communication and its disorders.

Undergraduate education

- o To provide high quality education in speech, language, and hearing sciences
- To prepare students to succeed in a variety of careers through the application of critical thinking and written and oral communication skills
- To prepare students to interact respectfully with people with disabilities/disabled people and treat those with communication disorders with empathy

Graduate education

- To train highly qualified audiologists and speech-language pathologists who are well-grounded in principles of evidence-based practice
- To instill professionalism in our students, so they demonstrate integrity, compassion, inclusion, excellence, and strong communication skills in their practices
- To train students to become leaders within their professional communities
- To prepare the next generation of ethical scientists in our professions

FACULTY RESEARCH AREAS

FACULTY RESEARCH AREAS

Consistent with our mission to advance the science that provides foundational understanding of human communication and communication disorders, our department houses research laboratories that complement our on-campus clinical facilities. Students can enroll in independent studies, participate in ongoing investigations, and to conduct directed research in the context of thesis and dissertation projects. A wide range of research interests are represented by the faculty as highlighted below.

Mary Alt Word and concept learning; understanding learning mechanisms;

applying learning theory to language treatment. Populations studied

include bilingual children and children with language

disorders/delays.

Genesis Arizmendi Dual language learners and the intersection of cognition and

language development on academic outcomes; learning disabilities; culturally responsive practices; interprofessional collaboration.

Kate Bunton Kinematic, aerodynamic, and acoustic characteristics of normal and

disordered speech production, speech development, and correlates

of speech intelligibility.

Meghan Darling-White Develop and validate interventions that have an impact on functional

speech production skills in individuals with motor speech disorders.

Leah Kapa Typical and disordered language development in childhood and the

interaction between language and cognition in children and adults.

Aneta Kielar Integration of behavioral and neuroimaging measures of brain

function with goal of understanding changes in cognitive functioning

associated with brain damage and recovery.

Megan Kobel Normal and abnormal vestibular function, vestibular diagnostic

techniques, motion perception, and aging and cognitive factors in

balance, gait, and falls.

Nell Maltman Language, cognition, and genetics across the lifespan in individuals

affected by autism spectrum disorder and fragile X syndrome, and

their family members.

Nicole Marrone Hearing loss and rehabilitation in adults; aging and cognitive factors

in auditory perception; improving speech understanding in

competing noise and reverberation

Julie Miller Neurogenetic and circuitry mechanisms underlying human vocal

function and dysfunction using birdsong as a model

Elena Plante Research related to understanding the nature of Developmental

Language Disorder in children and adults and to improving assessment

and treatment methods for this population.

Robin Samlan Production, perception, and measurement of the human voice

Brad Story Speech acoustics/analysis/signal processing, synthesis/simulation of

speech and voice, relation between articulation and acoustics, speech-to-speech transformation, perception of natural and synthetic speech.

BACHELOR OF SCIENCE PROGRAM OF STUDY

The Bachelor of Science degree in Speech, Language, and Hearing Sciences (SLHS) is conferred through the College of Science. Students complete the general education degree requirements for the College, as well as the requirements for the major. This handbook is intended to provide guidance for students seeking the Bachelor of Science degree in SLHS, or a minor in SLHS. The Department requirements and practices summarized herein supplement those described in the University's General Catalog. For information on general education, major, and minor requirements, the student should consult the University of Arizona catalog at http://catalog.arizona.edu.

The information in this handbook is subject to change as the University or Department guidelines change over time. The handbook is updated annually; students are held to the requirements in effect at the time they declared the degree program unless they formally choose to meet newer requirements. In other words, students use the Cactus book in effect at the time the major is declared but have the option to adopt the guidelines of a newer handbook (in its entirety).

Unit Requirements for the Degree

The minimum required total units for graduation based on UA policy is 120. This includes general education requirements, as well as major (both inside SLHS and outside SLHS). At least 42 units must be in upper-division coursework (300-level and above). At least 18 units in the major must be taken in residence. Students are required to have a minimum 2.0 GPA (cumulative and in the major and minor) to graduate. SLHS does not require, but highly recommends, a minor.

The SLHS major requires a minimum of 33 units of registration with the SLHS prefix. If you substitute a course for a required major course, you will need to take another SLHS course to ensure you meet the minimum number of units required for the degree. A recommended four-year academic plan and advising guide are available in Appendix A.

Advising

Undergraduate advising is provided by the Academic Advisor for SLHS and the College of Science (SLHS building, room 220a or Bartlett Academic Success Center (BASC)). Appointments can be made online at http://student.trellis.arizona.edu/. Students are encouraged to meet with their advisor once per semester to assure that their academic plan is in line with requirements. Progress toward the degree should be tracked using the Academic Advisement Report, and an up-to-date report should be brought to advising sessions. Instructions on how to find your Academic Advisement Report are on the next page.

Career Advising

Students can seek specific career advice, including information on plans for applying to graduate school, through the SLHS HUB. Please make an appointment with HUB director, Assistant Clinical Professor Amanda Martinez (slhshub@arizona.edu). Students may also

contact any faculty member; they are available to answer general questions about the field and careers in speech, language, and hearing sciences.

Graduate School Application Advice

Students seeking information on strategies for applying to graduate school can seek out Ms. Martinez at the SLHS HUB <u>slhshub@arizona.edu</u> and be on the lookout for departmental workshops on this topic. Students seeking information on the mechanics of applying to graduate school (e.g., how to navigate CSDCAS or GradApp) should contact Graduate Coordinate, Ms. Nickole Hayward nhayward@arizona.edu

General Education Requirements

All degree-seeking, undergraduate students must satisfy the requirements of the University of Arizona General Education Curriculum by completing a series of basic college courses. Details of these requirements can be found on the University General Education page https://gened.arizona.edu/.

- Introduction to General Education (UNIV 101)
- Exploring Perspectives (4 courses, 12 units)
- Building Connections (3 courses, 9 units)
- Capstone (UNIV 301)

Major requirements outside SLHS:

- One Statistics course. Approved courses: MATH 163, MATH 263, PSY 230, SBS 200, SOC 375.
- One Math Course. Approved courses: MATH 113, MATH 113-CC, MATH 115A, MATH 115B, MATH 116, MATH 122B, MATH 125, MATH 125-CC, MATH 129, MATH 129-CC, OR Approved Transfer Course*
- One Biological Science course including lab. Approved courses: ECOL 182L, ECOL 182R, MCB 181L, MCB 181R, MCB 184, PSIO 201, PSIO 202, OR Approved Transfer Course*
- One Physical Science course including lab. Approved courses: CHEM 130 & 130L CHEM 141 & CHEM 143, CHEM 151, PHYS 102 & PHYS 181, OR Approved Transfer Course*
- <u>One Social Science course</u>. Approved courses: See academic advisement report for a list of courses

Tracking Progress Toward Academic Requirements

An Advisement Report is an individualized report of progress toward the completion of degree requirements.

Academic Advisement Reports can be generated using UACCESS Student.

- 1. Log on to UACCESS Student Center (https://uaccess.arizona.edu/)
- 2. Under "Advising" tab select Advisement Report from the drop-down menu and click the arrow to continue
- 3. Your Academic Advisement Report will process usually within a few minutes. The PDF version contains GPA information.
- 4. Check the report for accuracy; see your advisor if you have any questions.

https://catalog.arizona.edu/policy/program-graduation/degrees-programs/undergraduate/advisement-reports

Transfer students: A recommended course sequence for transfer students seeking a BS degree in SLHS is provided in Appendix B.

Speak to your Academic Advisor for approved transfer courses to ensure direct equivalency. For guidance, see:

- AZ Course Equivalency Guide http://aztransmac2.asu.edu/cgi-bin/WebObjects/CEG
- Out of State Transfer Credit Guide -https://aztransfer.com/UACEG/UA_CEG_OutOfState.html

The SLHS Major

The undergraduate major in SLHS requires 33 units and a minimum GPA of 2.0.

- Required courses include: SLHS 261, SLHS 267, SLHS 340, SLHS 362, SLHS 367, SLHS 380, SLHS 441, SLHS 473, SLHS 477, and SLHS 483R/L. See course list in Appendix C for titles and brief descriptions.
- Elective courses include: SLHS 207, 255, 263, 270, 435, 454, 455, 458, 459, 471, 495a, 495a, independent study registrations 399 or 499, preceptor registrations 391 or 491, directed research registrations of 392 and 492, and workshop registrations 397 or 497. See Appendix D for titles and brief descriptions.
- Students who ultimately plan to work in Arizona public schools will be required to take
 Political Science 210 to meet state teacher certification requirements.

The Minor for SLHS Majors

Students select a minor area of study of interest that supports the major. The minor consists of at least <u>18 units</u>, nine of which must be upper division (300-level and above). Students are required to have a 2.0 GPA in the minor and take at least 3 units in residence.

The minor is not required for students in the SLHS Major; however, the minor is strongly encouraged for those wishing to pursue graduate education.

There are two options for the minor:

- 1. A traditional minor in one department related to the major, such as Psychology, Linguistics, Special Education and Rehabilitation, Public Health, or Spanish. You can check the catalog for specific minor requirements for a given department.
- 2. A thematic minor that includes work in two or more departments that support the major

An example of a thematic minor could be 9 hours of Psychology with additional coursework in such areas as Special Education and Rehabilitation, Educational Psychology, Family Studies, and Counseling and Guidance. These minors are available to students by petition only and the major advisor must approve all thematic minors. Print the Thematic Minor form by from the following location: http://www.registrar.arizona.edu/academics/thematic-minors
There is also a Pre-health thematic minor, which is described on the following website

https://theacenter.arizona.edu/pre-health/pre-health-professions-advising.

Mid-Career Writing Assessment (MCWA)

Every undergraduate degree program requires satisfaction of the Mid-Career Writing Assessment (MCWA). The MCWA is based on student performance in their second semester English composition course. A grade of A or B in one of the following courses will satisfy this University requirement:

- English 102 or
- English 108 (for ESL students) or
- English 104H (for Honors Students) or
- English 109H (for students earning a 4 or 5 on the AP exam)

Transfer courses in composition are evaluated by the English Writing Program coordinators.

Students earning lower than a C grade in the above coursework shall meet the Department requirement by (a) completing one Writing Skills Improvement Workshop of their choice and providing written documentation that this was completed and (b) earning a B or higher in the department writing emphasis course (SLHS 362 Neurobiology of Communication). Please discuss options with the SLHS academic advisor.

Degree Check

Students should initiate a degree check **before registering for their last semester.** To start the process, schedule an appointment with the SLHS advisor at http://student.trellis.arizona.edu/.

Minor in SLHS

A minor in SLHS requires a minimum of 18 units, at least 12 of which must involve coursework. Details related to the minor can be found in Appendix E. University policy requires nine units to be upper division to meet the requirements of a minor. Recommended courses for students interested in graduate school are shown in Appendix F (SLP) and Appendix G (AuD). Appendix H includes a list of all available SLHS courses in the minor.

Additional Educational and Engagement Opportunities

The University of Arizona 100% Engagement Initiative provides students the opportunity to apply what they are learning in a real world setting and challenges students to learn new skills. Participation in these activities is noted on your official transcript.

SLHS registrations that meet the University of Arizona's 100% engagement initiative include: SLHS 391, 392, 458, 459, 491, and 492.

Independent Studies, Preceptorship, and Directed Research Opportunities

Students have the opportunity of additional engagement through independent study, preceptorship, or directed research opportunities. Such enrollments are arranged individually with the instructor before registering. A list of faculty and their research emphases is included in the Department Overview Cactus book and on the SLHS website. Note that students should be in good academic standing if they want to pursue these additional opportunities. Learn about Undergraduate Research Experiences:

- https://ur.arizona.edu/content/undergraduate-research-programs-ua-students
- https://grad.arizona.edu/diversityprograms/uroc
- https://ubrp.arizona.edu/programs/undergraduate-biology-research-program

FUERZA Research Program

There are a limited number of paid research opportunities available through the FUERZA program, which is designed to increase the research pipeline for people from historically excluded backgrounds. FUERZA will next recruit students for Fall of 2025. Be on the lookout for the application or contact FUERZA Director Dr. Mary Alt: <a href="mailto:mailto

SLHS 397/497

These 1-unit elective courses offer students an opportunity to explore some of the more applied aspects of the field of Speech, Language, and Hearing Sciences or provide more detailed information about specific topics.

SLHS 458/459 Clinical Assistant Program and Advanced Clinical Assistant Program
The audiology and speech-language clinics provide an opportunity for upper class undergraduates to assist in the clinic setting in an independent study activity. Applicants must have at least a 3.2 GPA in the major and follow all clinic guidelines, including HIPAA training. You can find out more about the program on the website. If you are interested, please complete the CAP Student application form or ACAP application form.

Clinical Observations

The SLHS Clinic offers observation opportunities which are useful for understanding more about the field and for obtaining the 25 clock hours of clinical observation you need for some speech-language pathology graduate programs.

To observe in the University of Arizona Speech, Language, or Hearing Clinics, students must be registered as a degree- seeking student in SLHS or a non-degree seeking graduate student completing prerequisites for the graduate clinical program. Click here to read the rules and University of Arizona SLHS BS Student Handbook

schedule observations. The information on the website includes links to training you must complete, forms you must take to the observation (including a log), and a copy of the dress code, which you must sign.

Student Groups

For more information about our student groups visit: https://slhs.arizona.edu/student-groups

National Student Speech-Language-Hearing Association (NSSLHA)

Our local chapter of the <u>National Student Speech-Language-Hearing Association's</u> mission is to create meaningful and engaging campus and community experiences for future professionals in the fields of speech-language pathology and audiology. It works to promote advocacy within local and statewide systems to increase awareness of communication difficulties in our communities. NSSLHA meets these objectives through educational, philanthropic, and social activities. Mentoring opportunities, as well as group learning activities, are available throughout the academic year.

Speech, Language, and Hearing Cats of Color (SHCC)

SHCC is a student-led organization that aims to provide students interested in careers related to SLHS with academic support and career development resources in order to encourage student engagement and success. SHCC also aims to create solidarity between underrepresented students in the Speech, Language, and Hearing Sciences department, offering social support and representation for the cultural groups within the major as well as fostering a space of security, networking, and connecting these students to one another.

Student Academy of Audiology

The Student Academy of Audiology (SAA) is the national student organization of the <u>American Academy of Audiology</u> that serves as a collective voice, and advances the rights, interests, and welfare of students pursuing careers in audiology. SAA introduces students to lifelong involvement in activities that promote and advance the profession of audiology, and provides services, information, education, representation and advocacy for the profession and the public we serve.

The SLHS Student Success, Innovation, and Community Outreach HUB

The HUB is dedicated to collaboration centered on student success initiatives, leadership, community partnership, and development. Our purpose is to further student success, innovation, and community outreach initiatives through collaboration and partnership. Our initiatives and programming are grounded in inclusive excellence, supported by the core values of Humility, Understanding, and Belonging. To find out more information on the latest initiatives, please reach out to Ms. Karen Guilmette, slhshub@arizona.edu. https://slhs.arizona.edu/slhs-hub

University Policies and Resources

The University of Arizona seeks to promote a safe environment where students and employees can participate in the educational process without compromising health, safety, or welfare. To that end, the clear policies and guidelines are provided for student and faculty conduct, and excellent resources are available to support all members of the university community. We encourage students to seek guidance and assistance from SLHS faculty and staff as needed, including direct contact with the department head. Anyone who experiences or is aware of discriminatory conduct or threatening behavior is urged to report the concern without delay. Concerns or needs can be communicated directly to the appropriate university offices, including the Dean of Students, Human Resources, and the Office of Institutional Equity.

Nondiscrimination and Anti-harassment Policy: The University is committed to creating and maintaining an environment free of discrimination; see http://policy.arizona.edu/human-resources/nondiscrimination-and-anti-harassment-policy

Threatening Behavior Policy: The University of Arizona Threatening Behavior by Students Policy prohibits threats of physical harm to any member of the University community, including to oneself. See http://policy.arizona.edu/education-and-student-affairs/threatening-behavior-students.

UA Office of Institutional Equity: https://equity.arizona.edu/

Code of Academic Integrity: All members of the University of Arizona community have a responsibility to uphold and maintain an honest academic environment by following the University of Arizona Code of Academic Integrity. Students are encouraged to share intellectual views and discuss freely the principles and applications of course materials. However, graded work/exercises must be the product of independent effort unless otherwise instructed. Students are expected to adhere to the University of Arizona Code of Academic Integrity as described in the University of Arizona General Catalog.

See https://deanofstudents.arizona.edu/policies/code-academic-integrity.

Support Services and Resources for Students

Basic Needs Overview: The University provides information about resources for basic needs at a central site available here: https://basicneeds.arizona.edu/

Borrow Technology from U of A Library: If you need technology (e.g., laptops, hotspots, cameras) the library can support you for free: https://lib.arizona.edu/borrow/tech

Free or discounted software: As a student, you have access to Microsoft 365 and the Adobe Creative Cloud, among other options: https://it.arizona.edu/student-resources

Support Services: Student Assistance serves as a central support resource for all students. Help is available to support students and their families manage crises, life traumas, and other barriers that impede success. The staff works to address the needs of students who struggle in such areas as psychological health, physical health, victimization, relationship issues, social adjustment, and academics through a variety of interventions, referrals, and follow up services.

We strive for a culture of caring on campus. Resources are available here: https://deanofstudents.arizona.edu/support/campus-resources

Disability Resources Center: The Disability Resource Center (DRC) leads the University in a progressive and proactive approach to campus accessibility. Our goal is to ensure that disabled students, employees and visitors, have a similar, if not identical, experience to that of their non-disabled counterparts. In addition to facilitating individual accommodations, DRC works proactively to impact the systemic design of our campus environments to be seamlessly accessible, reducing or eliminating the need for any individual accommodations or modifications. https://drc.arizona.edu/about

Child Care Subsidies: This program offers up to \$2,000 in childcare subsidies for qualifying child care. Check the <u>webpage</u> for details. The <u>Family Resource Map</u> also lets you know about resources (e.g., changing stations, lactation spaces, family restrooms) across campus.

Graduate School Application Process

States require a graduate degree (M.S. or Au.D.) to practice in speech-language pathology or audiology, respectively. Near the end of your junior year, you should begin thinking about where you might want to attend graduate school, if you plan to practice as a clinician. Below are some considerations and resources to help you in the process of applying to graduate schools:

- You will want to research the different programs, their requirements, application, and deadline information. A listing of programs accredited by the American Speech- Language-Hearing Association can be found on the ASHA website at: https://caa.asha.org/programs/
- ASHA provides a website called "EdFind" that allows users to apply custom search filters for academic program, such as location https://find.asha.org/ed/#sort=relevancy
- You should apply to several graduate programs to ensure your chances of being accepted into at least one; the admissions process is competitive.
- During the summer or fall of your senior year, you will want to take the GRE if you are applying to schools that require it. It is a good idea to take the exam early enough so that you will have time to take it again if necessary.
- Consider which faculty members you would like to approach to write letters of recommendation for you. When you request a letter, be sure to provide information about the schools you are applying to and deadlines, your academic experience (including unofficial transcript), your personal statement, and whatever else the faculty member may request.
- Be sure to keep the original Observation Hours form(s). You will need to provide proof of observation hours to your graduate program. An electronic (scanned) copy of Observation Hours should on file in the department (the SLHS Undergraduate Advisor Uphaar Dooling) as they may be asked to verify the requirement is complete.
- Note that some of your undergraduate coursework serves to meet the knowledge and skill requirements of the American Speech-Language-Hearing Association Standards. The standards are posted on the ASHA website and are updated every few years.
 - For speech-language pathology, see https://www.asha.org/Certification/2020-SLP-Certification-Standards/
 - For audiology, see https://www.asha.org/Certification/2020-Audiology-Certification-Standards/

You can get individual support in strategizing for graduate school through the SLHS HUB: slhshub@arizona.edu

Students seeking information on the mechanics of applying to graduate school at the University of Arizona (e.g., how to navigate CSDCAS or GradApp) should contact Graduate Coordinate, Ms. Nickole Hayward nhayward@arizona.edu

Appendix L is a guide regarding what SLHS coursework at University of Arizona is associated with ASHA standards.

Speech Language Pathology Assistant (SLPA): Our program currently does not provide training opportunities for students pursuing an SLPA. However, Appendix M has information

that will help students who are interested in this career path determine which courses meet the requirements for certification as an SLPA. Further information can be found on the ASHA website: https://www.asha.org/certification/apply-for-slp-assistants-certification/.

AVAILABLE SLHS ELECTIVES:

SLHS 207: Survey of Communication and Its Disorders – Students are introduced to the scientific study of human communication and its disorders, with an overview of the biological systems of speech, language, and hearing, and a basic understanding of the nature and treatment of communication disorders across the lifespan.

SLHS 255: Hearing, Health, and Society – This course introduces students to critical thinking in relation to quality of life associated with hearing loss across the lifespan. Counts for GEN ED: Social Scientist, Diversity & Equity US Context

SLHS 263: World of Sound – An introduction to sound – its production, perception, and use in speech, music, and animal communications. The course is divided into basics of sound; music and speech production; the hearing system; and speech perception. Counts for GEN ED: Natural Scientist, Quantitative Reasoning

SLHS 397/497: Revolving Electives - Each year, the department will offer 1-credit electives. In Spring 2024-2025 these will include: Communicating Science (focused on how to communicate research about communication disorders to the public); Serious Play (which explores the role of play in learning); and Spanish for SLPs and AuDs (which is exactly what it sounds like).

SLHS 435: Bilingualism, Multiculturalism, and Nonmainstream Dialects – This course provides students with an overall understanding of child socialization practices, typical language development, and communication disorders across cultural-linguistic groups and issues related to the assessment of and intervention with individuals from culturally and linguistically diverse populations.

SLHS 454: Audiologic Rehabilitation Across the Lifespan – This course provides an introduction to interventions aimed at minimizing the communication difficulties associated with hearing loss in people of all ages. Recommended for those pursuing AuD & SLP graduate studies.

SLHS 471: Speech Sound Disorders – The purpose of this course is to introduce students to the major constructs currently framing the study of speech sound disorders as well as cover topics on assessment and treatment of these disorders. This course is highly recommended for students interested in pursuing an SLPA (Speech-Language Pathology Assistant) certificate or graduate study. Recommended for those pursuing SLP graduate studies

APPENDIX B

Suggested Course Sequence for <u>TRANSFER STUDENTS</u> in Speech, Language, and Hearing Sciences

Transfer students should meet with their major advisor on a semester-by-semester basis. A maximum of 64 units of community college course work may apply toward degree requirements. Coursework completed at community colleges are considered lower division. Students must complete 42 units or more of upper division coursework (300 and above) in order to graduate. Also, a minimum of 18 of the final 30 units taken toward degree requirements must be University of Arizona credits.

The course sequence below includes elective minor and upper division coursework.

JUNIOR YEAR		JUNIOR YEAR	
FALL SEMESTER		SPRING SEMESTER	
SLHS 340 - Language Science*	3	SLHS 267 – Acoustics	3
SLHS 362 – Neurobiology of Comm	3	SLHS 367 – Phonetics for Clinical Practice	3
SLHS 261 – Anatomy & Physiology	4	SLHS 441-Language Acquisition	3
Minor/Upper Division	3-6	Minor/Upper Division	3-6
SENIOR YEAR		SENIOR YEAR	
FALL SEMESTER		SPRING SEMESTER	
SLHS 477- Com Disorders I	3	SLHS 483R/L- Principles of Aud*	4
SLHS 380 – Hearing Science*	3	SLHS 473 - Com Disorders II	3
Minor/Upper Division	6-9	Minor/Upper Division	6-12
SLHS 471 Speech Sound Disorders+	3	SLHS 454 Auditory Rehab+	3

^{*}These courses are sometimes offered during summer session. See your academic advisor for updated summer offerings.

Be advised that transfer students are required to meet with their major advisor (SLHS advisor) to build an individualized plan of study based on transfer coursework.

Timeline for completion of degree requirements will also depend on transfer coursework with special attention to math and science proficiency and course history

⁺recommended for those planning to pursue graduate training for both SLP and AuD

APPENDIX C

Required SLHS courses

Syllabi for all courses can be found at the Syllabus Repository on the d2l SLHS Community page.

261 Anatomy of the Speech Mechanism (lecture + discussion)

This course is focused on the basic anatomy and physiology of the respiratory, laryngeal, and supraglottal airway subsystems as they pertain to speech production for human communication.

267 Acoustics for the Speech and Hearing Sciences

Basic principles of acoustics in speech and hearing are covered in this course.

340 Language Science

Core features of language are identified and integrated into a model of language that is applicable to language disorders and language development. Topics include: phonology, morphology, syntax, semantics, and pragmatics.

362 Neurobiology of Communication

This course focuses on the role of the central nervous system in human communication. The study of brain anatomy and physiology is approached from the perspective of how neurological systems support speech, language, and hearing and how breakdowns in these systems disrupt aspects of communication. *Writing Emphasis Course.*

367 Phonetics for Clinical Practice

This course overviews the scientific study of speech sounds with a focus on transcription of different types of speech, including adult and child speech, and typical and disordered speech. The focus of the class will be primarily on English (including its dialectal variants), but other languages will also be discussed.

380 Hearing Science (lecture + discussion)

This course introduces the scientific foundation for the sense of hearing and is organized around lectures and laboratory demonstrations that address (a) the anatomy and physiology of the ear and related structures, and (b) the basics about auditory perception.

Prerequisite: SLHS 267.

441 Language Acquisition

Principles and processes of first language acquisition described in relation to children's social and cognitive development; first language acquisition processes compared and contrasted to child and adult second language acquisition and language disorders.

Prerequisite: SLHS 340.

473 Communication Disorders II

This course focuses on disorders affecting communication across the lifespan. Consideration is given to signs and symptoms, etiology, clinical course, and vocational-social impact of these disorders. Principles of assessment and intervention are highlighted.

Prerequisite: SLHS 477.

477 Communication Disorders I

This course focuses on disorders affecting communication across the lifespan. Consideration is given to signs and symptoms, etiology, clinical course, and vocational-social impact of these disorders. Principles of assessment and intervention are highlighted.

Prerequisite: SLHS 261

483R/L Principles of Audiology (lecture + lab)

Basic principles and techniques of audiological testing, etiologies of hearing impairment, and intervention strategies are taught in this course. The laboratory provides hands-on experience in support of the content taught in the lecture. Concurrent enrollment is required. Prerequisites: SLHS 267 and 380.

APPENDIX D

Elective Courses Available in SLHS

Syllabi for many of these courses can be found at the SLHS Community d2l page, under the <u>Syllabus</u> Repository.

207 Human Communication and Its Disorders (3 credits)

The purpose of this course is to introduce students to the scientific study of human communication and its disorders, and to introduce the professions of Speech-Language Pathology and Audiology

255 Hearing, Health, and Society (3 credits)

The purpose of this course is to introduce students to critical thinking in relation to communication disorders and quality of life issues associated with hearing loss and aging GEN ED: Social Scientist, Diversity & Equity US Context

263 The World of Sound (3 credits)

This class is an introduction into all these aspects of sounds and our perception of them. GEN ED: Natural Scientist, Quantitative Reasoning

397* Workshop: Serious Play (1 credit)

This course is an overview of play, how it factors into development, and how it is used clinically.

397* Workshop: Communicating Science (1 credit)

This course teaches learners to communicate the science of speech, language, and hearing sciences to different audiences including scientists, practitioners, patients, and laypeople.

435 Bilingual, Multiculturalism, & Nonmainstream Dialects (3 credits)

This course provides students with an overall understanding of child socialization practices, typical language development, and communication disorders across cultural-linguistic groups and issues related to the assessment of and intervention with individuals from culturally and linguistically diverse populations.

454 Auditory Rehabilitation across the Lifespan (3 credits)

This course introduces interventions aimed at minimizing the communication difficulties associated with hearing loss in people of all ages.

458/459Clinical Assistant Program (1-2 credits)

Opportunity to work with a clinical educator and graduate students in the clinic setting

471 Speech Sound Disorders (3 credits)

This course is to introduce students to the major constructs currently framing the study of speech sound disorders as well as cover topics on assessment and treatment of these disorders. This course is highly recommended for students interested in pursuing an SLPA (speech-language pathology assistant) certificate or graduate study.

497* Spanish for Speech Language Pathologists and Audiologists (1 credit)

This course will give students an overview of the Spanish that is needed to communicate well during routine interactions associated with speech language pathology and audiology visits.

^{*}These electives may change from year to year. These are the planned offerings for Spring 2025.

APPENDIX E

Overview of the MINOR in Speech, Language, and Hearing Sciences

Students wishing to complete a Minor in SLHS are advised of the following:

- 1. A minor in SLHS requires a minimum of 18 units, at least 12 of which must involve coursework. University policy requires 9 units to be upper division to meet the requirements of a minor. See Table 1 below for available courses. For students who intend to pursue graduate school in Speech-Language Pathology or Audiology, a recommended course sequence is provided below (Tables 2 and 3).
- 2. At least 12 units of the SLHS Minor must be taken at the University of Arizona.
- 3. A minimum GPA of 2.00 is required in the SLHS Minor.
- 4. Some courses may have prerequisites. Students are strongly encouraged to meet with the SLHS advisor and plan to facilitate completing the course sequences in a timely manner.
- 5. For students interested in pursuing graduate studies in Speech-Language Pathology or Audiology: Completing a Minor in SLHS does NOT guarantee that all prerequisites for graduate school have been met. See Appendix F (SLP) and G (AuD) for recommended coursework. Although SLHS Minor students are strongly encouraged to take courses that will satisfy prerequisites for graduate school, there may be situations in which this is not possible (for example, see point 6 below). Coursework for Graduate Study in Speech-Language Pathology (https://slhs.arizona.edu/SLP-prerequisites) and/or the Recommended Coursework for Graduate Study in Audiology (https://slhs.arizona.edu/apply-aud-program) to formulate an optimal plan with the SLHS advisor.

Students who are pursuing a Major in SLHS receive priority over SLHS Minor students in class registration. This means that in some cases, SLHS Minor students may not be able to take a course (including required or prerequisite courses) because of limited enrollment capacity.

APPENDIX F

Recommended course sequence for SLHS minor <u>for students interested in pursuing graduate studies in Speech-Language Pathology</u>.

Consult Recommended Coursework for Graduate Study in Speech- Language Pathology. P = prerequisite course.

Term	Course number	Title					
Fall 261 (4)*		Anatomy & Physiology of the Speech Mechanism

Spring	473	Communication Disorders II
Spring & Summer*	483R & 483L (4)	Principles of Audiology

^{*} Summer offerings vary each year, please check with SLHS academic advisor

APPENDIX I

Overview of Confidentiality Guidelines

From HIPAA Privacy and Security Policies and Procedures

Confidentiality of client/patient information is mandated by federal law and is the practice of the Department of Speech, Language, and Hearing Sciences (SLHS). The Health Insurance Portability and Accountability Act (HIPAA) of 1996 and the Health Information Technology for Economic and Clinical Health (HITECH) Act of 2010 created national standards regarding the privacy and security of health care information. The University of Arizona and the Department of Speech, Language, and Hearing Sciences have procedures in place to protect the confidentiality, integrity and availability of protected health information (PHI). All SLHS faculty, staff, affiliates, volunteers and students must comply with SLHS policies and procedures regarding the privacy and security of PHI.

HIPAA Training Policy

All students majoring in SLHS, students involved in activities that bring them in contact with patients/clients in the clinic, and all faculty and staff must complete HIPAA training with annual updates, as needed.

- Undergraduate students who, as a part of their undergraduate programs, observe patients/clients in the clinic or who are involved in other activities which bring them into the clinics, are required to complete HIPAA training prior to participating in the observation or activity.
- Prior to observation in the clinic, students are required to provide evidence of completion of HIPAA training.

Medical Records Policy

Only students and faculty assigned to a clinical case shall access that client/patient's personal health information (PHI).

- <u>Undergraduate students completing observations are not allowed to view client/patient files (hard copy or electronic).</u>
- Exceptions can be approved by a supervising faculty member when a student is involved in a
 research or educational project that requires clinical information. In such cases the student's name
 and faculty name must be logged in the client/patient file. Students involved in the Clinical Assistant
 Program may be granted access to records specifically relevant to their clinical activities.
- Students ARE permitted to review therapy lesson plans when observing in the Speech-Language Clinic. The lesson plans are typically available in the observation room and are labeled with only client/patient initials.

Confidentiality

- Students should not discuss information regarding clients/patients that are observed in the clinic.
 The exception to this rule relates to educational discussions with SLHS faculty. Such discussions
 should only be conducted in private areas. On occasions where it is appropriate to discuss
 observations in class (as indicated by your instructor), the identity of the individuals should always be
 protected.
- It is allowable for some protected health information to be shared for educational purposes, such as case presentations in class that may include photographs, video/audio recordings, and written information/data ONLY IF the client/patient provides written consent to Use Clinical Information for Educational Purposes form. Students are expected to maintain the confidentiality of such information presented in the classroom.

Breach of Client/Patient Confidentiality Policy by Undergraduate Students

Undergraduate students who fail to abide by these guidelines will be subjected to corrective action (see Appendix K). A breach is the unauthorized disclosure of any form of PHI. If an actual or potential breach occurs, the individual discovering the breach must report it immediately to the Course instructor (if it occurred relative to information shared in a class), the SLHS Privacy Officer (Janet Hawley). These individuals will coordinate a response to the breach in accordance with procedures established by the Office for the Responsible Conduct of Research and the University of Arizona Information Technology Systems Department.

APPENDIX J

Corrective Action for Breach of Client/Patient Confidentiality Clinical Policy by Undergraduate Students

Purpose: This policy sets forth guidelines for corrective action when undergraduate students fail to comply with the confidentiality policy of the University of Arizona Department of Speech, Language, and Hearing Sciences and associated clinics both on and off campus.

Policy: Corrective action will be taken to correct inappropriate behaviors that could compromise the confidentiality of client/patient information. A *breach* is defined as the unlawful or inappropriate acquisition, access, use, or disclosure of protected health information (PHI) in a manner not permitted which compromises the security or privacy of PHI. The Course Instructor, Privacy Officer, and Clinical Instructors are responsible for addressing these behaviors in a timely manner and for documenting corrective actions.

It is the responsibility of the Privacy Officer (via HIPAA training), the Course Instructor and, as applicable, the Clinical Faculty to inform students of:

- the federal law governing confidentiality of clinical information
- departmental rules for protecting confidentiality of client/patient information
- the steps that will be taken to correct violations of the rules for protecting confidentiality of clinical information
- the timeline for correcting inappropriate behavior(s)
- the consequences of failure to abide by departmental rules for protecting confidentiality of client/patient information

Any academic or clinical faculty member or member of the staff who observes a student, or group of students, engaged in a behavior that appears to *threaten* or *breach* the confidentiality of client/patient information is required to immediately advise the student of their concern and file an incident report with the Course Instructor or Privacy Officer.

Corrective Action Steps

Step 1: <u>Conference with Course Instructor/Privacy Officer</u>: Depending on where the confidential clinical information was presented/observed (i.e., in class vs. in the clinic), the Course Instructor (or Privacy Officer) is required to confer with the student or students named in the incident report. The goal of the conference is to ensure that there is both understanding of and commitment to protecting confidentiality of client/patient information.

Step 2: Written warning and conference: When a student has been named in a second incident that could potentially <u>breach</u> confidentiality, s/he will be given a written warning from the Course Instructor, or Privacy Officer, as appropriate. The reason for the written warning will be discussed with the student. Thereafter the written warning will be placed in the student's record in the department. The goal of the conference is to explain the seriousness of maintaining confidentiality of client/patient information and the consequences of another instance of inappropriate behavior that can include a grade of failure in the associated class.

Step 3: <u>Suspension from class participation and a grade of failure:</u> Students who have received a written warning and thereafter are judged to have behaved in such a way as to <u>breach</u> the confidentiality of client/patient information will be suspended from class participation and receive a grade of failure.

Students have the right of appeal of actions and decisions of suspension from class and receipt of a failing grade. The appeal must be filed with the department head within 5 days of receiving the decision. For appeal procedures see University of Arizona Student Disciplinary Procedures found at the following website https://deanofstudents.arizona.edu/student-rights-responsibilities

APPENDIX K: Undergraduate SLHS Coursework meeting ASHA Standards (required courses)

Standards can be found at: https://www.asha.org/Certification/2020-SLP-Certification-Standards/, for audiology, see https://www.asha.org/Certification/2020-SLP-Certification-Standards/. Certification-Standards/
